### 1. I have not received my log on to ESR to access my Mandatory Training?

In order to obtain your log in details for ESR please contact the ESR.Leademployer@sthk.nhs.uk team who will be able to assist. You will need your Employee Number/ National Insurance number and Date of Birth to hand to obtain your username and further guidance on how to log on to the system.

### 2. I am unable to complete Safeguarding Level 3, Resus Level 2 or 3 and Moving and Handling Level 2 on ESR or E-Learning for Health, this is still showing non-compliant?

All the above modules have an element of face to face training required. The eLearning available is a prerequisite for the face to face component. Please contact your local host to organise to attend a face to face training session. Once this is complete you will be marked as compliant by the Host organisation.

# 3. Will I get a compliance certificate at the end of my E-Learning completion to add to my personal portfolio?

There are some E-Learning Modules which offer a certificate of completion at the end of the module. This can be screenshot or printed. Once the module has been closed this cannot be re-accessed again. You are however able to access a compliance report via ESR on your "My Learning Page" as proof of evidence of completion.

# 4. I have completed my training with an alternative NHS Trust. Will this training transfer across to my Lead Employer Account?

**Yes -** Core Skills Training Framework for Statutory and Mandatory Training information will pull across to your 096 Lead Employer record from a previous NHS Trust through an Inter Authority Transfer (IAT) which is completed when you are hired onto ESR by Lead Employer. Please note that this is dependent on your previous Trust actioning the IAT request.

For enquires regarding completion of modules Need help? on ESR or log in details. Please contact ESR.Leademployer@sthk.nhs.uk

# 5. I have undertaken training on a different e-Learning platform to ESR and eLfH, will this information transfer over?

If you have training records on another Trust ESR through completion on an alternative e-Learning platform this will firstly transfer through to Lead Employer via a Multiple Competency Update.

If you have completed CSTF training on a local Host Trust e-Learning platform with no links to ESR, your Host Trust will be able to manually add this training to 09 ESR using Supervisor Self Service.

### 6. I have completed an Advanced Life Support (ALS) or Intermediate Life Support\* (ILS) Course recently, do I still have to do Resuscitation Adults BLS Level 2?

If you have completed ALS or ILS Level 3 within the past year, BLS can be credited. However if you have completed ALS more than a year ago, BLS will not be credited as you are required to complete BLS on an annual basis.

\*ILS is only valid for 1 year
