GoSW Lead Employer Report – Mr Mike Chadwick – April 2024 – June 2024

Introduction

Following the implementation of the Terms and Conditions of Service for NHS Doctors and Dentists in training (England) 2016 the Guardian of safe working is required to ensure that issues of compliance of safe working hours are addressed by the doctor, employer and host organisation as appropriate and provide assurance to the Board of the employing organisation that doctors' working hours are safe.

This report covers the period of April 2024 – June 2024.

1. High level data

| | | |
|---|-------------------------|---------------|
| Total number of host organisations | 103 | |
| Total number of host organisations returned exception report data | Number of organisations | % return rate |
| | 100 | 97.1% |

The table below shows the number of resident doctors split by region on the 2016 contract:

| Region | Total number of Doctors/Dentists employed under the 2016 Terms & Conditions of Service | Total number of Doctors/Dentists employed under the 2016 Terms & Conditions of Service based within acute host organisations |
|--------------------|--|--|
| North-West | 6630 | 4230 |
| West Midlands | 1787 | 513 |
| East Midlands | 1322 | 351 |
| East of England | 1590 | 469 |
| LaSE | 52 | 28 |
| Thames Valley | 505 | 133 |
| York & Scarborough | 121 | 35 |
| TOTAL | 11,980 | 5,759 |

3. Exception reports (regarding working hours)

Exception reporting is the mechanism used by resident doctors subject to the Terms and Conditions of Service for NHS Doctors and Dentists in training (England) 2016 to notify the trust when their day-to-day work varies significantly, or regularly from their agreed work schedule.

Of those host organisations who have returned exception report data, Appendix 1 sets out the exception reports made during April 2024 – June 2024. This includes the number of exception reports that have been raised and closed, what outcome was given and how many are outstanding/on-going.

4. Fines

Breakdown of GoSW fines levied during April 2024 – June 2024.

| Trust | No.of fines levied | Values of fines levied |
|---|--------------------|------------------------|
| Central & NW London NHS FT | 6 | £1,560.44 |
| Manchester University NHS Foundation Trust | 15 | £9,149.50 |
| Tees, Esk and Wear Valleys NHS Foundation Trust | 3 | £804.93 |
| Totals | 24 | £11,514.87 |

5. Work Schedule Reviews

The non-elective service rota and work schedule (which is a pattern of work during elective duties) is a document distributed to resident doctors before they commence their placement with the host Trust. It includes generic information relating to the placement, such as learning opportunities, the rota template and pay details. The work schedule is adjusted locally by clinical/educational supervisors to suit the individual training needs of the resident doctor. If sufficient evidence from educational reviews suggests a resident doctors work schedule is considered too onerous or likely to significantly affect training then a review is recommended so as to effect a change more suitable to the training needs of the resident doctor, either as an individual or in the case of the department as a whole a rota change.

| Trust | No.of work schedule reviews |
|--|-----------------------------|
| Liverpool University Hospitals (Aintree / Royal Lpool) | 24 |
| Manchester University NHS Foundation Trust | 6 |
| Warrington and Halton Hospitals NHS FT | 1 |
| Wirral University Hospitals NHS Trust | 2 |
| Totals | 33 |

6. Issues arising and actions taken to resolve issues

As the rate of return has been low across previous reports, work has been undertaken by the Lead Employer Team to ensure requests for return of information are being received by the appropriate colleagues locally; this included ensuring our list of trust-based Guardians remains current and the appropriate administrative staff are also in receipt of information requests to ensure responses are received by Lead Employer when absence may occur.

As a result of this work rates of return have increased from historic rates of ca.66% and we have maintained a return of 97.1% this quarter. This means that the data can be regarded as representative allowing for more reliable monitoring of trends across the patch.

Lead Employer continues to work with organisations with no return received to ensure an understanding of our reporting responsibilities as the employer.

7. Conclusion and Recommendations

The GOSW is assured with the overall safety of working hours across the host organisations for resident doctors under the 2016 Terms and & Conditions based on evidence from the exception reports submitted thus far. Concern for the safety of patients and wellbeing of their doctor providers is paramount and departments, whilst presenting increased opportunities for experience and learning (particularly in “craft specialties”), should be mindful of the need to control the hours limits set for these individuals despite the need to apply additional work as part of the NHS recovery plan.

The GOSW would ask the Board to note this report and to consider the assurances provided thus far.

END
