2	GOSW Update	N/A	
	<p>Dr PA explained that there has been an increase in exception reports coming through especially a rush recently around Public Health. Dr PA clarified this is an impact of the measles epidemic outbreak as trainees are getting quite a lot of extra work. Trainees are currently being paid for these extra hours and we are managing the exception reports well.</p> <p>However, these exception reports have uncovered some minor issues regarding the non-resident on call rota, but we are making progress with this.</p> <p>Dr PA stated there have been an increase in emails from trainees questioning their rotas. Dr PA thinks this is more of a lack of understanding of how the rota's worked, and these issues have not caused any great problems.</p>
